

Masood Tayebi

Co-Founder, BioDuro; Board Chairman, Wireless Facilities, Inc.

Dr. Tayebi's ability to build and grow a global multi-billion dollar outsourcing services business is incontrovertible. He brings the wealth of experience and critical insights into the service sector, gained through his success in the telecom industry, and in Co founding a number of life sciences companies such as BioDuro LLC, BioAtla LLC, Femta Pharmaceuticals and Biotech Investment Group. Masood applies the lessons learned to advancing the drug development industry. Dr. Tayebi has been involved in founding, financing, and managing numerous companies. Most recently, he founded, built, and managed WFI, the leading global services firm to the wireless industry. At the peak of telecom hype, WFI had a market capitalization of over \$7 billion. Dr. Tayebi received his PhD from the University of Liverpool, England, his MS in electronics engineering from the University of Southampton, England.
